

We'll be making petals and then laying them out & assembling them at a meeting

We'll need approx 80 petals & 16 white squares to complete the quilt.

each petal is a 8" unfinished square

so cut 8" squares of all colors(pinks, oranges, yellows?) & whites

for each flower petal you need:

\*one color square

\*one white square cut in half on the diagonal to make 2 triangles (alternately, you can use white scraps that are big enough)

use a stitch and flip technique to sew white triangles onto 2 adjacent corners of the colored square.

*\*important that the white triangles overlap at least 1/4 inch on the one side of the square to get a nice point*

Vary the angles to create white corners of different sizes.
